

What Is The Output ?

```
let num = 10;
function outer(){
  function inner(){
    let num = 20;
  }
  console.log(num);
}
outer();
```

10

```
let person = {
  name : "john",
  getName : function(){
    return name;
  }
}

console.log(person.getName());
```

error not define

const variables should be initialized

```
const i;  
for(i = 1; i <5; i++){  
  
  console.log(i);
```

```
const arr = [1 , 2 , 3 , 4 , 5],  
  newArr = [];  
for(let val in arr){  
  newArr.push(val);  
  console.log(newArr);  
}
```

1
12
123
1234
12345

```
const arr = [1 , 2 , 3 , 4 , 5],  
  [foo , bar , ...baz] = arr;  
console.log(foo);  
console.log(bar);  
console.log(baz);
```

Write Js Code To Solve This Problem

1
2
3 4 5

```
function addValues(...values){  
  // Write Js Code To Add 1 + 2 + 3 + 4  
}  
  
addValues(1 , 2 , 3 , 4); // Output : 10
```

GoodLuck 😊
